about photo usa 2

“ Our mission is to provide businesses with customized promotional products and decorating services that exceed their wants and needs in both quality and price.

Founded in 1992, Photo USA, Corporation has since grown to become the leading sublimation supplier in the United States. The company is best known for manufacturing sublimation coated ceramic products and substrates. In addition, Photo USA supplies the industry with stainless steel, aluminum, glass, and fabric substrates as well as sublimation equipment and supplies.

Photo USA is headquartered in Silicon Valley in beautiful Northern California. The new 87,000 square foot facility in Fremont, California houses our management, sales, marketing, production, and shipping teams. All our sublimation products are sourced from Beijing, China, which is key to developing high-quality products and maintaining industry-leading prices.

Why Choose Photo USA?

- High-quality sublimation products
- Trusted advertising specialties and promotional products source
- State-of-the-Art decorating services
- Top-notch tech support
- DIY heat presses & equipment

For more information regarding product blanks, heat presses, accessories, or high-quality decorating services, please call us toll-free at (800) 996-6022. **Office visits by appointment only.**

Thank you for your continued support,

The Photo USA Team

- Built-in stand included
- USB powered or AAA battery (not included)

Size (H x OD)	4.625" x 2.5" x 1.25"
Imprint Area	4.375" x 2.25"
Heat Time & Temperature	Flat heat press: 177°C/350°F, 40s
Pieces Per Case	360
Case Weight	72 lbs.

**85016**

Rectangle Key Ring

- Rectangular chrome-plated alloy key ring
- Vibrant color reproduction on recessed metal insert
- For all novelty gifts, awards, and more!

Size	1.8"L x 1.1"W
Imprint Area	0.8" x 1.1"
Heat Time & Temperature	Flat heat press: 185°C/365°F, 120s
Pieces Per Case	120
Case Weight	13 lbs.

**85022**

Diamond Key Ring

- Diamond puzzle theme chrome-plated alloy key ring
- Vibrant color reproduction on recessed metal insert
- For all novelty gifts, awards, and more!

Size	2"L x 1.8"W
Imprint Area	1" x 1"
Heat Time & Temperature	Flat heat press: 185°C/365°F, 120s
Pieces Per Case	120
Case Weight	13 lbs.

**85055**

Heart Key Ring

- Chrome-plated heart shape with dimples alloy key ring
- Vibrant color reproduction on recessed metal insert
- For all novelty gifts, awards, and more!

Size	1.9"L x 1.4"W
Imprint Area	1"D
Heat Time & Temperature	Flat heat press: 185°C/365°F, 120s
Pieces Per Case	120
Case Weight	12 lbs.

**85047**

Swirl Key Ring

- Chrome-plated swirl shape alloy key ring
- Vibrant color reproduction on recessed metal insert
- For all novelty gifts, awards, and more!

Size	2"L x 1.4"W
Imprint Area	1"D
Heat Time & Temperature	Flat heat press: 185°C/365°F, 120s
Pieces Per Case	120
Case Weight	22 lbs.

**85061**

Twisted Heart Key Ring

- Chrome-plated twisted heart shape alloy key ring
- Vibrant color reproduction on recessed metal insert
- For all novelty gifts, awards, and more!

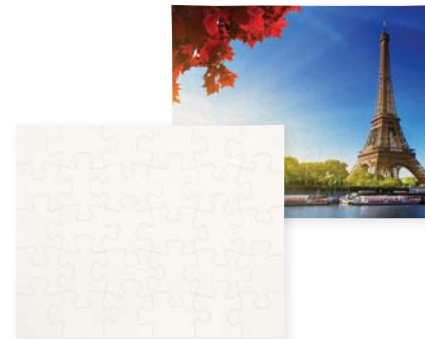

Size	2"L x 1.3"W
Imprint Area	1" x 1"
Heat Time & Temperature	Flat heat press: 185°C/365°F, 120s
Pieces Per Case	120
Case Weight	11 lbs.

**91100**

110-Piece Set Puzzle

- Authentic interlocking puzzle pieces
- Glossy surface for vibrant color reproduction
- Novelty gifts, auction items, fundraising and more!

Size	9.5"L x 7.5"W x .01"
Imprint Area	9.5" x 7.5"
Heat Time & Temperature	Flat heat press: 204°C/400°F, 40s
Pieces Per Case	400
Case Weight	38 lbs.

**91102**

30-Piece Set Puzzle

- Novice-level interlocking puzzle pieces
- Vibrant color reproduction on glossy surface
- Novelty gifts, auction items, fundraising and more!

Size	9.5"L x 7.5"W x .01"
Imprint Area	9.5" x 7.5"
Heat Time & Temperature	Flat heat press: 204°C/400°F, 40s
Pieces Per Case	400
Case Weight	36 lbs.

Car sunshade imprinted and folded

91240

Car Sunshade Set

Sets of 2 sunshades with suction cups

- Lightweight and durable
- Suction cups allow accurate positioning
- For novelty gifts and retail applications

Size	17.3" x 15"
Imprint Area	17.3" x 15"
Heat Time & Temperature	Flat heat press: 204°C/400°F, 40s
Pieces Per Case	250
Case Weight	27 lbs.

72021 5mm, 70211 3mm
Standard Mouse Pad, 5mm or 3mm

- Polyester sublimation cover & durable rubber backing
- Large surface area for comfortable mouse movement
- For the classroom, office, or home

Size	9.3"L x 7.8"W x 0.3"H
Imprint Area	9.3" x 7.8"
Heat Time & Temperature	Flat heat press: 204°C/400°F, 40s
Pieces Per Case	100
Case Weight	28 lbs.

90001
Metal Business Card Case

- All metal construction for solid feel with locking friction tab
- Sublimation insert for colorful decoration
- For the entrepreneur in you

Size	2.4"L x 3.7"W x 0.9"H
Imprint Area	1.7" x 3.2"
Heat Time & Temperature	Flat heat press: 190°C/375°F, 120s
Pieces Per Case	140
Case Weight	23 lbs.

21610 Black, 21612 Blue
Ceramic Pencil Caddy

- Sturdy, high gloss ceramic surface
- Sublimation coating for vibrant image reproduction
- For the office, classroom, or telephone station

Size	5"H x 3.3"OD
Imprint Area	10.8" x 5"
Heat Time & Temperature	Flat heat press: 182°C/360°F, 60s
Pieces Per Case	36
Case Weight	49 lbs.

40100
Wooden Pencil Holder & Photo Tile

- Maple-finished wood construction with 3 top slots
- Features 2-sided sublimation tile inserts and base feet
- For the office, study, or library

Size	5"H x 5"W x 1.875"D
Imprint Area	4.125" x 4.125" (2 Tiles)

3D Vac-U-Press VP5060*

Gain volume performance and product quality with the revolutionary Vac-U-Press VP5060 sublimation press. Decorate on hundreds of sublimation substrates both flat and 3-dimensional. With a 20" x 24" flat work surface, volume production of quality mobile device covers, mugs, photo tiles, and more can be produced quickly.

Convenient side-mounted control panel allows easy access to time, temperature, and activation control settings. The locking front working tray pulls out for easy substrate loading. Assembly required.

Work Area:	20" x 24"
Controller:	Digital time & temperature
Power:	2400 Watts
Current:	15.5 Amps
Voltage:	208VAC, 60Hz
Dimensions:	34.25"L x 28"W x 27"H
Weight:	238 lbs.
Guarantee:	1 Year (excluding membrane) Membrane available for purchase.

3D Vac-U-Press VP3030*

Like the VP5060, the Vac-U-Press VP3030 sublimation press allows for volume production but with a smaller desktop footprint. Decorate on hundreds of sublimation substrates both flat and 3-dimensional. On a 12" x 12" flat work surface, quickly produce quality mobile device covers, mugs, photo tiles, and more.

The side-mounted control panel allows easy access to time, temperature, and activation control settings. The locking front working tray pulls out for easy substrate loading. Assembly required.

Work Area:	12" x 12"
Controller:	Digital time & temperature
Power:	1200 Watts
Current:	10 Amps
Voltage:	100-120VAC, 60Hz
Dimensions:	24"L x 18"W x 15"H
Weight:	91.5 lbs.
Guarantee:	1 Year (excluding membrane) Membrane available for purchase.

3D Vac-U-Press VP3030 Mini*

The Vac-U-Press VP3030 Mini sublimation press allows for volume production in a portable footprint. Decorate on hundreds of sublimation substrates both flat and 3-dimensional 9" x 12" flat work surface. Quickly produce quality mobile device covers, mugs, photo tiles, and more.

The self-contained vacuum control unit is separate from the main production cabinet with the control panel on a convenient wired digital control box. This allows easy access to time, temperature, and activation control settings. Hinged hood is securely locked during vacuum heating. Assembly required.

Work Area:	9" x 12"
Controller:	Digital time & temperature
Power:	1100 Watts
Current:	9 Amps
Voltage:	100-120VAC, 60Hz
Dimensions:	13.4"L x 16"W x 7"H
Weight:	33 lbs.
Guarantee:	1 Year (excluding membrane) Membrane available for purchase.

“ Vacuum assisted heat

presses are revolutionizing

the sublimation industry by

allowing advertising specialty

and promotional products

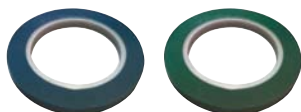

production studios to save on

substrate decoration costs. ”

“Our mug presses make sublimation easy! Our digital control units feature easy-to-read and use controls. Time and temperatures are set with a touch of a button.”

Mini Mug Press BJ880

The BJ880 Mini Mug Press: is our entry level heat press. Called Mini Mug for its small footprint (a little over 1 square foot) this little workhorse will press virtually any cylindrical mug in our catalog (6 oz. Espresso Mug to our 22 oz. Beer Stein).

- Digital time and temperature readout
- Two different heater elements
- Transfers to 6 oz., 10 oz., 11 oz., 15 oz., 20 oz., stainless steel and 22 oz. steins
- Pressure adjustments on handle
- Prints a full 3.75" x 8.25"
- Rated Input Voltage - 110v, 50-60Hz
- Rated Input Power - 350W
- Temperature Range - 0-430°
- Time Control Range - 0-999 seconds
- Starting Temperature Range - 200-380°
- Ending Temperature Range - 200-430°F

Multi-Function Mug Press: BJ890

Our BJ890 Multi-function heat press is a versatile heat press that NOW features the ability to make cone-shaped mugs. Because customers asked, we delivered. The BJ890 comes with 4 interchangeable heating elements that will allow you to imprint on all mugs ranging from the 6oz Espresso mug to the 22oz Beer Stein, and now the 12oz and 17oz Latte (cone-shaped) mugs.

- Digital time and temperature readout
- Four different heater elements
- Transfers to 6 oz., 10 oz., 11 oz., 15 oz., 20 oz., stainless steel and 22 oz. steins
- Pressure adjustments on handle
- Prints a full 3.75" x 8.25"
- Rated Input Voltage - 110v, 50-60Hz
- Rated Input Power - 350W
- Temperature Range - 0-430°
- Time Control Range - 0-999 seconds
- Starting Temperature Range - 200-380°
- Ending Temperature Range - 200-430°F

All-In-One Heat Press AA802

The AA802 comes with 8 individual heating add-ons which can function as a flat press, mug press, plate press, and hat press. This will allow you imprint all sorts of things such as mugs, plates, titles, mouse pads, t-shirts, compact mirrors, cone-shaped latte mugs, and many more!

- Digital time and temperature readout
- Seven heater elements
- Magnetic brackets to help position heater elements
- Fully adjustable
- Rated Input Voltage - 110v, 50-60Hz
- Rated Input Power - 350W
- Temperature Range - 0-430°
- Time Control Range - 0-999 seconds
- Starting Temperature Range - 200-380°
- Ending Temperature Range - 200-430°F

What is Sublimation?

In our industry, dye sublimation refers to the process of transferring the dye (or ink) from one medium, such as paper, to another medium, such as ceramic. This is done by printing an image with sublimation ink, placing the printout on your product, then heating the products to transfer the ink.

By definition, sublimation is a chemical process that causes a solid to vaporize then become solid once again. More detailed information can be found at http://en.wikipedia.org/wiki/Dye-sublimation_printer

What do I need to begin producing customized products?

Heat press machine

We provide 3 different types of presses – All-in-one, multi-function, and a line of Vac-U-Presses

Sublimation coated, polymer, or polyester blanks

All of the products we offer work with sublimation.

Sublimation capable printer

Epson and Ricoh printers work very well for sublimation. We supply printers only in starter kits. Call for information.

Sublimation ink

Available in cartridges and continuous ink systems. Photo USA does not sell sublimation ink. Call for information.

Will any ceramic or metal product work with sublimation?

No. Our sublimation products all have a special coating that is unique to our company. When the ink on the transfer paper is heated to a specific temperature it will begin to evaporate from the paper and stick onto the coating. Without the coating, the ink will not adhere to the substrate.

Are your products dishwasher safe?

Products that use our specially engineered Orca™ coating are considered dishwasher and microwave safe unless the drinkware or product is constructed of metal. Look for Orca® in the product name and the Orca Coatings® logo on the product!

How to Buy Blanks

Photo USA's ordering process is designed to make things as efficient and effortless as possible. Rush service is available for an additional fee.

Minimum Order Quantity (MOQ)

1 full case unless specified otherwise.

Information required for orders

Item numbers or names, quantity, shipping address, billing address, contact / company information, and payment information.

Volume Pricing and Ordering

We currently supply large quantities worldwide and we can fulfill any order. Get the best prices available on the market by ordering in volume from us. We are here to assist you to make sure you are taken care of every step of the way. Here's what we promise:

- 250+ products to choose from
- Best quality with the lowest prices – best value guaranteed
- 20 & 40 foot containers available
- Knowledgeable sales staff will work with you through the entire sales process
- Large container order turnaround in as little as 30 days to anywhere on the globe

Please contact our sales department for more information at **1-800-996-6022** or visit **www.photomugs.com**.

Custom Decorating Services

Photo USA offers high quality custom decorating for all our products. Our services are guaranteed

Imprinting Set-up Fees

Photo USA will produce a sample using your supplied artwork for as low as a \$75 dollar set-up fee. Depending on the complexity of the job, such as layout design and color correction, the costs may differ. Please contact us today to get a real time quote for your specific job.

Pre-production Approval

Once you decide to move forward with our services, we will receive from you a properly formatted image with which we will create a pre-production sample. Production will begin after you approve the sample.

Imprint Production

Production will begin after the pre-production sample is approved. Our normal turnaround time after the pre-production sample is approved is roughly 1-2 weeks. Rush order services are available for a minimal fee.

File Specifications

Please note the imprint area for the product to be produced (under Specifications on each product page on www.photomugs.com).

- We have state-of-the-art design facilities and currently accept all file formats. We prefer to have the original image, if possible.
- Application files (with layers) to be supplied if we need to make modifications to the image.
- Common file formats supported – EPS, PSD, PDF, AI, CDR, TIF, JPG
- Photographic images should at least 300 dpi at the final size to be printed. Please use the sRGB workspace when possible and supply us with RGB mode files for the most vivid output.
- All text should be converted to outlines to avoid font substitution problems.

Reorders: There will not be a setup fee on any reorders within two years of the order being placed. Any changes to the artwork will incur a setup fee.

Please contact our sales department for more information at **1-800-996-6022**.
